Our aim is to empower and support the people we serve to live self-determined, productive and valued lives within our community. To accomplish these aims, PGCC has identified, developed and offers programs on prevention, education, intervention, treatment, rehabilitation, residential and other support services in a personalized, flexible manner appropriate to the needs of each individual and family we serve.

At Positive Growth Counseling Center (PGCC), we provide person-centered, family-focused, and community based culturally sensitive services, which enable the consumer to gain the best possible level of functioning as defined by the individual.

Serving children and families since 1994
